

DRINKLINK & CATERED 4

COMPREHENSIVE IN-HOUSE OFFERING:-

We have carefully structured our group to provide all of the core services required to help support & develop our catering customers.

PRODUCT QUALITY:-

As an independent group, we make it a priority to shop around the whole marketplace to ensure that the quality and range of our products is second to none.

RAZOR SHARP PRICING:-

By dealing direct with most major manufacturers, and by operating a customer focused pricing policy, we make it our business to ensure that you receive the very best value for money when you buy from us.

RELIABLE SERVICE:-

With our own team of delivery drivers and engineers, we can control the quality of the service you receive and ensure that it remains at the highest level when you deal with us.

SPACE & TIME:-

With our own purpose-built palletised warehouse, we can store the right level of your chosen products - so you can call them off when it suits you and we will ensure that you never run out.

PROFESSIONAL ASSISTANCE:-

We have several partners within our Group (see below) - each with a specific area of expertise, who can give you the right advice whenever you need it.

YOUR LOCAL SUPPLY SOLUTION:-

We're "on your doorstep" so why not call us FREE on

Services within our group that may benefit you:

We would like to offer you our full range of services to assist you with the supply and development of your business now and in the future.

Please note that we differ from most of our competitors in that the bulk of our services are provided within our group so that we (and therefore you also) have maximum control over the quality, budgets and timings of your requirements.

Our comprehensive service portfolio now includes:

Beverage dispensing services - full range of systems and products to provide you and your customers with a high quality, cost effective and profitable beverage service - backed by our own delivery vehicles and equipment engineers.

Packaging & disposables - we stock a wide range of plastic, paper and other packaging and disposable products – with many additional options such as printed products and biodegradable items - giving you massive choice in this vital area of your business. In addition, if we don't stock an item you require, we can usually source it for you and then hold stock for you if you will need it regularly. Due to our long experience in the marketplace, we can give you professional help and advice where needed - and because we bulk-buy, our wholesale prices are very competitive. And with FREE samples and tailored prices it couldn't be simpler.

Heavy catering equipment - almost every conceivable piece of catering equipment can be sourced from all the major manufacturers – and all at very competitive wholesale prices. From cookers to fridges and dishwashers to serving counters – we supply the smallest to the largest - we can even organize full kitchen refits and bespoke items where required. Service from professionals who speak your catering language – and prices tailored to your budget and specifications.

Tableware & light equipment - In this product group, we have access to a truly vast range of essential catering items – from cutlery to crockery and aprons to wet floor signs - literally everything you need can be sourced at competitive prices.

Furniture - we are able to offer you a full portfolio of furniture – indoor and outdoor – including many ranges for dining, lounge and reception etc. With so many choices of style, construction and upholstery etc – let us provide you with a professional and experienced service – at a price to suit your chosen budget.

Cleaning & hygiene - we provide a full range of cleaning & hygiene products – such as janitorial and washroom supplies etc – all available on our regular delivery schedule. Professional service and tailored prices.

Catering project management - with our own professional experience, plus the specialised support of major manufacturers, we can oversee your entire catering project from concept to completion.

Computer Aided Design (CAD) - we can help you with the design of your new facilities to ensure that you have everything you need in an efficient layout.

Tailored fabrication - using the latest fully automated equipment and our many years of experience in this field, we can build your steelwork to your chosen specification.

Extraction & ventilation - again, with many years experience in this field, we can design, manufacture and install the most suitable systems for your particular needs.

High cleaning - very thorough and professional service to ensure that your ventilation system and catering environment performs efficiently and contains minimum hazards. Essential service to help you meet safety standards and satisfy your catering insurance requirements.
